

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

STRATEGIC EUROPEAN SMALLER COMPANIES FUND (the "Fund")

A sub-fund of E.I. Sturdza Funds plc (the "UCITS") EUR Institutional. ISIN: IE00BD03RN13 (the "Representative Class")

OBJECTIVE AND INVESTMENT POLICY

The Fund aims to outperform small and medium capitalisation firms operating in European equity markets.

Investment will normally be concentrated in a portfolio of 20-30 individual securities and will emphasise investment in companies that have a market capitalization below Euro 3 billion but may invest in companies that have a market capitalization up to Euro 5 billion. Investment in emerging markets will be limited to 20% of assets. The Fund may also invest in corporate bonds if these assets are considered favourable compared to that company's equity securities.

The Fund's investments will be primarily listed on a Recognised Stock Exchange. Although the availability of some investments will be limited and individual positions may not be able to be bought or sold easily in the markets, the Fund will look to ensure that the liquidity profile of the investment portfolio as a whole will permit the Fund to meet its obligations to investors to offer weekly subscriptions and redemptions.

It is not anticipated that portfolio transaction costs will have a material impact on performance.

The Fund will also use financial derivatives such as futures and options both to hedge the value of the assets within the investment portfolio and also to gain additional investment exposure where necessary. It is likely that a large proportion of the Fund's assets may be invested in financial derivative instruments at any one time which may enhance or detract from the performance of the Fund.

You can buy and sell your shares in the Fund on a weekly basis. The Shares that you will hold in the Fund are accumulating Shares. This means that income from the Fund's investments will be included in the value of your shares rather than being paid to you as a dividend.

The performance of the Fund is measured against the STOXX Europe 600 Net Return Index.

This Fund may not be appropriate for investors who plan to withdraw their money within twelve months.

RISK AND REWARD PROFILE OF THE FUND

Lower risk

Typically lower rewards

Higher risk

Typically higher rewards

This indicator is based on historical data and may not be a reliable indicator of the future risk profile of the Fund.

The risk category shown is not guaranteed and may change over time.

The lowest category does not mean risk free.

The risk indicator for the Fund is set as 5, which reflects the historic price behaviour of the Fund. Factors that affect the profile of this Fund include:

- Investments in equity securities are subject to fluctuations in value dependent on market conditions which will directly affect the value of investments held by the Fund.
- The Fund invests with a focus on one region and may hold a sizeable exposure to a single country which may increase the risk compared to a fund that invests in a globally diversified range of investments.
- The Fund invests in a concentrated portfolio of investments that may potentially focus on one or more sectors or industries. The range of investments may provide more risk to the Fund than a more diversified portfolio across sectors and industries.

Additional specific risks of investing in this Fund include:

- **Currency Risk:** the risk that changes in the exchange rates of the currencies of the investments in which the Fund invests may adversely impact the value of the investments held by the Fund.
- **Custody and Settlement Risk:** the risk that the transactions entered into by the Fund are not settled or registered as appropriate.
- **Financial Derivatives Risk:** the risk that financial derivatives may increase or reduce exposure to underlying assets and may create gearing; therefore their use may result in greater fluctuations of the Net Asset Value of the Fund.
- **Liquidity Risk:** the risk that the assets of the Fund may have low levels of liquidity in some circumstances.
- **Market Capitalisation Risk:** the risk that the assets of the Fund may have a more limited market, research coverage and investor base with greater price volatility than securities of larger companies.
- **Operational Risk:** the risks associated with correctly reflecting the value and safekeeping of the assets of the Fund.
- **Taxation Risk:** the risk of changes in taxation regimes, including legal and regulatory changes.

The Prospectus and Supplement give you more details about all the risks for the Fund - see under "Practical Information" for how to obtain a copy.

CHARGES FOR THE FUND

One-off charges taken before or after you invest

Entry charge	3.00%
Exit charge	0.00%

The entry and exit charges shown are maximum figures and are the amount that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charge	1.18%
----------------	-------

Charges taken from the Fund under certain specific conditions

Performance Fee	15.0% of relative outperformance of the Fund when compared to the Benchmark index, provided that the outperformance exceeds the level reached in previous periods. This amounted to 0.18% of the Representative Class for the financial year ending 31 December 2017.
-----------------	---

These charges are used to pay the costs of running the Fund, including the costs of marketing and selling. Overall, these charges reduce the potential growth of your investment.

In some cases you might pay less entry and exit charges. Please refer to your financial adviser or the Distributor for the actual entry and exit charges.

The ongoing charge is based on estimated fees and expenses that the Representative Class will pay in one year. This figure may vary from year to year. It excludes performance fees and portfolio transaction costs, except in the case of an entry / exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

For more information about charges, please see the relevant section in the Supplement, which is available at www.eisturdza.com.

PAST PERFORMANCE

The Fund came into existence in May 2015, however the Representative Class was launched in March 2017 and there is insufficient data to provide a useful indication of past performance to investors.
